Date	Amount	Source
FY2019	\$ 125,000.00	DMV maintains two (2) composite reservoir accounts – one with
	·	Bank of America and one with Wells Fargo (formerly known as
		Wachovia). If a customer presents a check for payment of services at
		a DMV Field Office and the check is deposited into a Bank of
		America (BOA) or Wells Fargo Bank Account and the check is
		returned due to insufficient funds, account closure, etc., the amount of
		the check is returned against these composite reservoir accounts. As
		such, when DMV collects on the NSF check, the funds are deposited
		into the Agency's clearing accounts. Once sufficient funds are
		received, DMV transfers funds into the accounts to cover any negative
		balances. DMV's composite reservoir accounts were transferred to
		DMV from DPS when DMV became a stand-alone Agency in June of
		2003. To our knowledge, Bank of America and Wachovia did not
		require funds from the Agency to set up these accounts initially.
