RE: Travel Report – Fiscal Year 2006-2007

DATE: November 1, 2007

The enclosed Travel Report for Fiscal Year 2006-2007 is provided for your information. The Comptroller General's Office compiled the report from data recorded in the Statewide Accounting and Reporting System (STARS). Agencies that receive state appropriations but have the authority to issue their own checks and maintain their own accounting systems also submitted data for inclusion in this report.

The report is intended to be used as a management tool to assist agency heads in ensuring that the state's financial resources are being used efficiently. Feel free to contact me if you have any questions concerning this report.

PREFACE

The Comptroller General's Office compiled this report on travel expenditures for the fiscal year ended June 30, 2007, to the extent possible, from data recorded in the Statewide Accounting and Reporting System. Agencies that receive state appropriations but have the authority to issue their own checks and maintain their own accounting systems, such as the state's technical colleges, state-supported universities, and certain autonomously-organized component units of the state that receive state appropriated funds, submitted the data needed for inclusion in this report.

Employee job titles were obtained from the Budget and Control Board's Office of Human Resources (OHR) except for legislative and judicial agencies. Each legislative and judicial agency submitted the job titles for persons listed in this report.

This report includes travel related expenditures paid from state, federal, and other sources by all agencies that received appropriations in the 2006-2007 Appropriations Act. Expenditures for travel costs incurred in the issuance of bonds, state-owned leased cars, and employee moving expenses are not included. Persons employed by one agency may incur travel expenditures that are appropriately charged to another agency. In these instances, the employee and the related travel is listed under the agency that paid for the travel.

This report is divided into three sections.

Section One contains a summary of in-state, out-of-state, and non-state employee travel expenditures by agency. Out-of-state travel includes domestic travel outside the state as well as travel outside the borders of the United States. Non-state employee travel represents expenditures by non-state employees for transportation, mileage, lodging, meals, and other legal charges necessary in the performance of their services while under contract with the State. This category includes registration fees and travel paid to volunteer workers. Section One lists agencies in descending order beginning with the agency that spent the most on travel.

Section Two ranks each agency by the combined total amount spent on in-state and out-of-state travel. For each agency, the top twenty-five employee travelers are listed in descending order according to the amount expended. For agencies with more than twenty-five employee travelers, a line-item is included to show the total travel expenditures of employees not listed in the top twenty-five. In instances where more than one employee incurred the same amount of travel expenditures as one of the top twenty-five, each employee is listed. Therefore, it is possible that some agencies will have more than twenty-five employees listed. Expenditures for non-state employee travel are not included in this section. Accordingly, an agency's rank in this section may differ from the rank in Section One.

Section Three contains narratives provided by each agency. The narratives summarize the type travel incurred by each agency. They are listed alphabetically by agency name.

SECTION THREE

**Travel Summaries by Agency
in Alphabetical Order**

TRAVEL SUMMARIES

ACCIDENT FUND, STATE

All travel incurred by the State Accident Fund during the reporting period was directly related to providing essential services to or on the behalf of our policyholders. Travel expenses can be divided into four major groups. The first and largest single source of travel expenses was related to unallocated loss adjustment expenses. These activities include claim investigations, interviewing witnesses, gathering evidence, and representing our policyholders at administrative hearings. The second group consisted of underwriting expenses. Meeting with new and potential customers and conducting the annual policy audits to review payroll information and insure proper classification of employees. The third group included delivery of safety and loss control services to our policyholders to assist them in reducing the frequency and severity of their claims. The fourth group included customer relation visits, attendance by key personnel at professional conferences and seminars, employee development, delivering training services, and other required travel.

ADJUTANT GENERAL'S OFFICE

Travel in the Office of the Adjutant General is necessitated by mandated inspections, training, and seminars. 81% of the travel is paid using federal dollars.

Army Guard Master Cooperative Agreement (MCA)

Operations and Maintenance, Environmental, Distance Learning, and ITAM expenditures were 100% federal. Most expenditures were related to National Guard Bureau (NGB) training and conferences held out of state. One Environmental employee had significant in-state travel to armories in support of the hazardous materials/waste program.

Youth Challenge

Expenditures were for employees from each of the two programs. Most travel was mandated by the NGB and received 100% federal funding vs. the normal 60/40 funding for Youth Challenge.

Emergency Management Division

Employees' travel related to radiological emergency response planning paid from earmarked funds from the State's five nuclear facilities. One is the Hurricane Program Manager whose travel is 50% federal and 50% state. Travel was mandated for training during and after the Katrina Disaster. The Director of EMD represents the State at the national and regional level. His travel included the National Hurricane Conference, National Emergency Management Association Conference, and in-state training events.

ADMINISTRATIVE LAW JUDGES

The Administrative Law Court incurs several types of in state and out of state travel that benefit the agency. Law Clerks and staff attorneys attend the annual SCAARLA Educational Seminar and Conference to further their training in Administrative Law and Continuing Legal Education. The Chief Judge attends National Administrative Law Judge Conferences which keeps him abreast of the most recent proceedings, rulemaking procedures and regulations and reviews of the basic elements in Administrative Law. Newly elected judges attend the National Judicial College to introduce them to Administrative Law.

AGRICULTURE DEPARTMENT

To accomplish the mission of this agency and keep agriculture a strong industry in our state, our staff must travel extensively both in and out of state.

Many of our employees visit with major chain receivers, food service companies, food and agricultural product brokers and varieties of others involved in the food, fiber and beverage industry both in state and out of state. Our consumer service inspectors must travel to ensure compliance with our petroleum, weight/measure and food statutes.

AIKEN TECHNICAL COLLEGE

Aiken Technical College (ATC) faculty and staff participate in training and professional development opportunities to provide instruction and/or enhance their current job knowledge, skills and abilities. Some faculty and staff members hold leadership positions within their respective fields and attend regional conferences. Out-of-state travel includes attendance and speaker engagements at national annual conferences, meetings and training programs such as Institute for Facilities Management (APPA); National Council for Continuing Education and Training (NCCET), Workforce and Business Development Institute, National Coalition Building Institute (NCBI), National Council for Workforce Education, Learning Resource Network (LERN), American Association of Community Colleges (AACC), National Association of Student Personnel Administrators (NASPA) and Student Leadership Training. Travel out-of-state is necessary to obtain and maintain accreditation for academic programs and the College, such as National League Nursing Accreditation Council (NLNAC) and Southern Association of Colleges and Schools (SACS), respectively. ATC is involved in intercollegiate athletics which required out-of-state travel to the national championships this past year.

Travel is funded with federal grant, state grant and local dollars. WorkKeys profilers' travel is billable to the Workforce and Business Development clients. State appropriated funds are not allocated to travel.

ALCOHOL AND OTHER DRUG ABUSE SERVICES, DEPARTMENT OF

During fiscal year 2007, the South Carolina Department of Alcohol and Other Drug Abuse Services (DAODAS) incurred travel expenses for the purposes of conducting compliance reviews of local agencies and attending/conducting training events and professional conferences. Staff from various DAODAS sections traveled together to local agencies and conducted simultaneous reviews across a range of topics to reduce expenses associated with the compliance reviews. These visits rarely involved overnight stays. The out-of-state travel was required through grants received by DAODAS, and grant/federal funds (not state funds) were used to pay for these trips.

ARCHIVES & HISTORY, DEPT. OF

All of our employees' out-of-state travel was associated with and in support of our mission statement, which is "To preserve and promote the documentary and cultural heritage of the state of South Carolina." We accomplish this through professional records, historic preservation, education and public awareness programs as authorized by South Carolina laws enacted in 1954, 1966, 1973, 1986 and 1990.

Out of state travel expense was associated with conservation and preservation of documents and records, programs for education of S.C. history and for professional development and administrating for all agency programs.

ARTS COMMISSION

The majority of the agency's in-state travel expenditures are for visits to constituents throughout the state for grant advisement, planning, meeting facilitation, grant project monitoring, speaking to civic and educational groups, etc. There are also expenditures related to professional development meetings and conferences. Out-of state expenditures are generally for attendance at meetings related to funder-driven national initiatives (e.g., Wallace Foundation and LINC—Leveraging Investments in Creativity) and professional development conferences.

ATTORNEY GENERAL'S OFFICE

The Office of the Attorney General is South Carolina's chief legal office. The South Carolina Constitution defines the Attorney General's role as "chief prosecuting officer of the State with authority to supervise the prosecution of all criminal cases in courts of record." The primary activities of the Office are prosecution and litigation, and its staff is composed largely of attorneys and their support personnel.

In FY 2007, travel incurred by Attorney General staff covered many initiatives and spectrums. Travel in this office related to the following activities: prosecution of Securities Fraud by the State Grand Jury, Civil Litigation, Post Conviction Relief litigation, Insurance Fraud prosecution, Government Litigation, and Pro Bono prosecution. Other areas of focus involving Attorney General employees were the Clerk of Court, Medicaid prosecution, Internet Crimes Against Children prosecution, and Violence Against Women prosecution. The Attorney General staff also attended the Solicitor's Conference, National Association of Attorney Generals' Conference, and other administrative training seminars.

BLIND COMMISSION

There are several types of employees at The Commission for the Blind that must travel to fulfill their job duties. These employees include consultants, technicians, counselors, and other professional staff. Consultants travel across the state to Blind Licensed Vendors who operate food retail establishments and vending machines. These consultants visit locations on a monthly basis in order to audit existing locations, set up new locations and visit areas for potential locations. There are also two vending machine technicians who travel throughout the state to install, repair and relocate machines as needed. Vocational Rehabilitation counselors provide home management training to adult consumers in their homes across the state. Counselors also provide services to children in their homes and schools. Other counselors travel to assess job skills of consumers and then, provide training for employment and living independently as appropriate. When consumers are placed into the workforce, travel may be required to install assistive technology solutions for the blind in the workplace. Conferences and training are attended by Commission employees throughout the year. In the event that any of our visually impaired employees travel, another employee of the Commission may be required to assist in their transportation.

BUDGET & CONTROL BOARD

Most of the Budget and Control Board's in-state travel expenses are necessary for and an integral part of service delivery. Examples include travel by Insurance Reserve Fund (IRF) adjusters to resolve insurance claims on properties throughout the state, Research and Statistics' surveyors maintaining/upgrading boundary markers, General Services Mail carriers transporting mail statewide among agencies, and Retirement and Employee Insurance staff providing education and training to state and local government administrators of those programs. Some in-state travel is for Board staff to participate in training to include technical training received via the Internet. Out-of-state travel expenses are incurred by the Surplus Property program when, acting as the one agent for the state as required by federal law, it screens federal Surplus Property for eventual disposition to state and local governments.

Limited out-of-state travel expense is incurred to consult with actuaries and attorneys regarding tort and property loss claims. Out-of-state expenses also include travel by the Office of Research and Statistics to fulfill contractual obligations, by the Office of the Chief Information Officer to provide for specialized training for members of the South Carolina Enterprise Information System (SCEIS) and Information Technology Infrastructure Library (ITIL) implementation team, and by Insurance, Office of Human Resources, Office of General Services, Retirement and CIO staff to participate in highly specialized and complex training and professional discussions in their respective areas.

Most non-state travel supports the provision of government services through private contractors. These include travel by investigators, adjusters, law firms and actuaries for work relating to the IRF, employee insurance, and Retirement Systems.

BUDGET & CONTROL BOARD **AUDITOR'S OFFICE**

Approximately ninety-five percent of the travel expenditures for the fiscal year were incurred conducting the field work required to audit state agencies and Medicaid providers. Of these expenditures, approximately two-thirds were for audits of Medicaid providers and one-third for audits of state agencies. The remainder of the travel expenses was used to attend conferences of professional organizations, such as the Government Finance Officers Association and the Southeastern Audit Forum, and to recruit on college campuses for entry level auditors.

- Costs for continuing education faculty teaching courses out of town.
- Conferences and seminars for faculty and staff as a part of the College's comprehensive professional development program.
- Training programs for specific faculty specialty areas.
- Non-state employee travel consists largely of travel reimbursements related to area high schools for professional development and students in the TRIO program.

Out-of-state travel supports the following activities at Clemson University: enhancing instruction and promoting academic enrichment, research, public service, (land grant), student programs and recruitment, donor development, and professional development. Many of the federally funded and sponsored research programs at Clemson University require out-of-state travel.

Under the statute the Bank may provide funding for fee simple transfers, conservation easements and low interest loans of

property where willing landowners are interested in keeping their land as it presently exists in perpetuity. The Director inspects all properties prior to grant approval. The Director additionally makes educational talks to conservation groups and associations.

CONSUMER AFFAIRS

In-State Travel: Expenditures for in-state travel were attributable mostly to investigators during the performance of their duties investigating pawnbrokers, mortgage brokers, physical fitness centers, etc. Other expenditures for meals and lodging were for employees who attended workshops and seminars. Miscellaneous travel expenditures were mostly for parking. Registration fees were for employees who attended conferences, seminars, and workshops.

Out-of-State Travel: Expenditures for meals, lodging, air-travel, other transportation, miscellaneous travel and registration fees were mainly attributable to Legal Staff Attorney and the Chief Investigator. DENMARK TECHNICAL COLLEGE

Most of our travel is a result of our recruitment efforts to enhance the academic enrollment status of our campuses. Most of our out-of-state travel involves professional development for our faculty and staff. We also have a NASA grant that requires out-of-state travel for the instructor and students to participate in a robotics program.

Most of this travel was funded from Federal sources which were specifically earmarked for professional development.

DISABILITIES AND SPECIAL NEEDS, DEPT. OF

SCDDSN incurs in-state and out-of-state travel expense for professional or management staff to attend various local, regional and national conferences and training sessions. DDSN incurs out-of-state travel expense to visit exemplary disability programs in other states. The information from these visits is used to aid in the design and implementation of programs within our state. Other meetings address the management and overall policy and direction of disability agencies.

Education Oversight Committee incurs travel expenses in support of professional development for its employees in completion of assigned responsibilities (e.g. development of assessment profiles). Professional development through attendance at education policy conferences and meetings also includes travel by the state project director of the Middle Grades School State Policy Initiative (which is administered in part through the Education Oversight Committee). Other travel expenses incurred would include professional development for Education Oversight Committee staff through continuing education initiatives in support of the individual employees' primary duties. As well as, travel expenses incurred by employees, members, and employees of other state agencies who participate in Education Oversight Committee reviews and meeting in support of Education Oversight Committee duties and initiatives.

EDUCATION, DEPT. OF

The S.C. Department of Education (SDE) incurs travel expenses in discharging its roles, functions and missions as defined by state law. SDE representatives are required to attend national, regional and state meetings, conferences and workshops relating to various state and federal programs. The purpose of these activities is to obtain current information on education issues, gain awareness of the best practices in education, and facilitate collaboration in the education community. SDE representatives are also required to perform various monitoring and auditing functions, and to provide technical assistance to schools and school districts.

In many instances, the federal government mandates attendance at conferences and/or workshops to obtain current federal guidelines, regulations, and procedures for administering federal funded education programs. South Carolina's receipt of federal education funding is contingent upon attendance at many of these activities.

EDUCATIONAL TELEVISION COMMISSION (ETV)

Educational Television incurs travel expenditures in three main areas: (1) those related to the production of television and radio programs, (2) staff attending regional, national and international meetings of organizations and (3) travel costs for engineering and education staff working throughout the State.

Travel was required for staff in order to educate citizens on voter registration, absentee voting and demonstrate the new voting system. SEC staff followed established travel guidelines and took steps to eliminate unnecessary travel.

EMPLOYMENT SECURITY COMMISSION

The South Carolina Employment Security Commission continues to make every effort to minimize in and out-of-state travel. However, there are numerous federal grants that our agency has secured that demand a certain amount of in and out-of-state travel as part of carrying out the responsibilities of the grant. There is also the need for our hearing officers and program coordinators to travel to carry out their duties effectively.

Additionally, there is mandatory attendance at various federally sponsored training sessions dealing with all new legislation affecting employment security agencies. Also, this agency is committed to developing its staff to be as knowledgeable as possible in their area of responsibility, which sometimes involves travel to workshops and seminars. Again, we keep this to a minimum and all of these expenditures are funded by federal grants to the South Carolina Employment Security Commission.

ETHICS COMMISSION

The travel incurred by the State Ethics Commission during fiscal year 2007 was for staff training and for conducting investigations.

No out-of-state travel was incurred.

Travel also includes meeting with potential forest products industries who may be interested in South Carolina as a possible location for future plants.

Keeping abreast of other states' plans, continuing education in the forestry field, representation of forestry in South Carolina at forest industry trade shows are the primary reasons for in-state and out-of-state travel in the agency. Attendance is also required at forest cooperatives meetings and various forestry organizations in which the agency holds membership. Travel to meetings is by automobile, official and/or private, and by plane.

It should be noted that approximately 60% of travel is directly attributed to instructors, deans and academic department heads. The college utilizes grant funds, whenever possible, for employee training and development. Approximately 39% of funds used for travel are from grants.

The College is expected to have representation at national conferences. The purpose of these trips is to allow employees to keep current with the nation's trends in higher education, software development and technology changes in the various academic disciplines. Another significant portion of travel is directly related to training our Financial Aid and Integrated Resource Management staff; constant training is necessary to keep them up to date on the Financial Aid regulations and changes and upgrades to our relational database system. Travel in support of the Commission's licensing, Higher Education Awareness, and Statewide Electronic Library functions accounted for the remaining 47 percent or \$79,449.

HORRY GEORGETOWN TECHNICAL COLLEGE

Unprecedented rises in fuel costs during the fiscal year naturally increased our overall travel spending. Notwithstanding fuel cost increases, a major driver of our travel costs rests in the fact that HGTC maintains three campuses in Horry and Georgetown counties. As such, travel between these sites is considered a necessary and reimbursable business expense. To that end, 11 of the top 25 travelers were professors who commuted between our three campuses providing instruction. Moreover, six of the top 25 travelers were required to travel and were financially funded under Federal programs.

The preponderance of the remaining travel costs were attributed to commutes to/from Columbia for required (mandatory) meetings and seminars.

The agency also reimburses commission members for mileage to attend commission meetings and other functions in their capacity as members of the Commission on Indigent Defense.

Most of the out of state examinations are on South Carolina domiciled companies.

LOWCOUNTRY TECHNICAL COLLEGE

The Technical College of the Lowcountry (TCL) serves a four county area including Beaufort, Jasper, Colleton and Hampton counties. Situated in the low country of South Carolina, the TCL main campus is located near the center of the city of Beaufort and is confined by the waterways and limited highway infrastructure. As a result, travel to the other campuses requires 24 miles travel one way to New River and 45 miles one way for the Hampton Campus. The opening of the New River Campus in August 2006 has resulted in a substantial increase in travel between campus locations by both faculty and support staff. Reimbursement for personal use of automobile accounts for more than 35% of the total college travel expenses for the year. Travel to Columbia to attend required State meetings results in a round trip of almost 300 miles. In addition to location issues, TCL employees are often required to drive their own vehicles for business travel, due partially to the College having only one state vehicle. Required travel through our service area has also increased because of initiatives with high schools with Dual Enrollment. Due to the increasing demand for our Health Science programs as well as adding additional programs, more local travel for instructors to distant clinical sites in order to monitor students has been necessary. Continuing Education staff has incurred additional travel cost for new business training programs in Colleton County as well as state wide travel relating to initiating a new program in Mine Safety Training.

Out of state travel was incurred primarily by the Administration of the College while attending training seminars, Southern Association of Colleges and Schools (SACS) accreditation meetings, the American Association of Community Colleges (AACC) annual convention and various professional conferences. action plan for the ongoing development of new exhibits, the development and presentation of educational material, the collecting of artifacts, the presentation of public programs, the development of outside funding sources, and the development of cooperative partnerships. Our Executive Director's travel expenditures totaled \$1,947.90 or 10% of the total travel expenditures. Director Calloway attended a conference to keep abreast of market conditions and demands, plus he attended board retreats and tourism panel discussions. Patriots Point Development Authority's travel expenses fall into two main categories. The first category consists of expenditures related to travel to and from meetings hosted by professional organizations specifically related to Naval and Maritime museums such as the Historic Naval Ships Association and the Southeastern Registrar's Association related to museum collections. PIEDMONT TECHNICAL COLLEGE

Piedmont Technical College has as a part of its mission the professional development of its faculty, staff and administrators. As a part of an employee's annual plan there is often the need for the individual to attend workshops, conferences, or meetings across the state. To a certain extent there is limited out-of-state travel that is required for purposes of training, accreditation or knowledge enrichment. Recognizing austere times and the need to only promote travel that will have a direct impact on the employees' professional development, the college allocates less than 3% of the total operating budget to department travel. The college does have a number of Federal grants that require employees to travel, but these are completely reimbursed by the associated grant and are not part of the departmental budget.

Travel has always been very limited at Piedmont due to the need for operational funds in educational budgets for such items as salaries, supplies and contractual services. Travel funding has not been a priority at Piedmont due to the focus in funding more classroom related needs. All travel has to be approved in advance with any out-of-state travel requiring Presidential approval and written documentation of how the travel relates to the employee's job performance and/or to the college's mission.

PROBATION, PAROLE AND PARDON SERVICES

Out-of-State travel for the Department falls into three categories. The first of these is the use of POV to perform assigned duties due to the lack of state cars. The second category is specialized Agent safety training in use of semi-automatic firearms, fugitive investigation and arrest mechanics activities. The Department benefits by having the expertise to maintain appropriate training in the interest of Agent safety. The third category is participation in professional organizations and national committees of criminal justice organizations in a program planning role. The Department benefits from such participation by having the opportunity to meet other professionals in the criminal justice field; to share South Carolina's methodology for parole processing and decision-making; and, to observe and learn methods for improving the Department's parole related activities.

PROSECUTION COORDINATION, COMMISSION

In-state travel during Fiscal Year 2006/2007 consisted of Commission meetings, meetings with the sixteen Judicial Circuit Solicitors, the prosecution of criminal cases throughout the state as well as educational training and professional development programs. PUBLIC SAFETY, DEPT. OF

Again this year, most of the employees on our list are law enforcement personnel with the Highway Patrol, State Transport Police, or Bureau of Protective Services. We had personnel from our Office of Highway Safety and Justice Programs make our list. We also had trainers/teachers with the Criminal Justice Academy, and patrolmen assigned to the Governor's security make our list. Finally, we had SLED agents make the travel list.

Our federal grants personnel attend various federal training courses on highway safety, law enforcement and victim rights. CJA personnel went to several crash training and drug safety related courses. The patrolmen assigned to the Governor went wherever he or his family traveled. Our agency through federal grants programs provide SWAT training to several SLED agents.

This year like last year saw a very small amount of hurricane activity so those travel costs were kept to a minimal amount. However, the cost to provide traffic control along the coast for the motorcycle events again was approximately \$100,000 or more.

PUBLIC SERVICE COMMISSION

The Public Service Commission of South Carolina is a quasi-judicial body charged with adjudicating cases involving the state's investor owned utilities and certain transportation companies. Commissioners and its staff have the responsibility of ensuring the citizens of South Carolina are charged reasonable rates and receive adequate service from the companies under its jurisdiction.

Balancing the interest of customers and regulated companies requires Commissioners and staff who are highly skilled, technically competent, knowledgeable, well trained and flexible within the dynamic regulatory environment. Out-of-state travel expenses were incurred by Commissioners and staff members to remain abreast of the myriad changes within the regulated utility industry. The Commissioners and its staff also must represent the state in out of state workshops, seminars, and meetings with national and regional organizations such as the National Association of Regulatory Utility Commission (NARUC), Southeastern Association of Regulatory Commission (SEARUC), American Gas Association (AGA), North American Electric Reliability Council (NERC) and Federal Energy Regulatory Commission (FERC).

When possible, we seek out stipends and scholarships for educational programs. The PSC is also trying to plan its travel in advance in order to obtain best ticket and lodging prices.

REGULATORY STAFF, OFFICE OF

The Office of Regulatory Staff (ORS) was established in fiscal year 2005. The employees of ORS are unclassified and as such do not have standard State job titles.

The Regulatory Conferences are a forum for discussions and presentations regarding regulatory directions and issues. The training provided by NARUC consists of intensive instruction in regulatory theory, policy, processes, and trends.

In addition, several trips were made to meet with representatives of federal agencies to keep them informed of South Carolina's issues and progress.

The ORS has railway, transportation and pipeline inspectors. Some of the out of state travel expenses were for employees to attend conferences and training to maintain their knowledge and certification as well as to keep up to date with changes in regulation. In state travel expenses were incurred traveling throughout South Carolina inspecting transportation carriers (movers, cabs, buses, etc.) and gas pipelines.

RETIREMENT SYSTEM INVESTMENT COMMISSION

Effective October 1, 2005, Act 153 of 2005 created the South Carolina Retirement System Investment Commission (Commission) to consolidate the investment functions to manage the defined benefit retirement funds of the South Carolina Retirement Systems (Retirement System) as fiduciaries and to enhance long-term investment performance. The Commission's mission is to fulfill its fiduciary responsibility by prudently managing all assets held in trust for the sole

benefit of participants and beneficiaries of the Retirement System, seeking superior long-term investment results at an acceptable level of risk. Travel expenses incurred during FY 2006-07 by seven of the Commission's full-time equivalent employees (Internal titles: Administrative Director & General Counsel, Administrative Coordinator, Chief Investment Officer, Senior Equity Officer, Director of Research, Administrative Assistant to the CIO, and Research Analyst) included continuing education to maintain and improve knowledge to provide optimal services and ensure prudent management of the investment of the pension trust funds. Employees attended seminars such as the Commission's two-day investment retreat at the Wampee Conference and Training Center (Wampee Retreat) in Pinopolis, SC, and continuing education on fiduciary responsibility and investment standards. The educational seminars resulted in evaluation of several current processes and proposals for new policies to enhance investment operations and standards. Employees also attended various meetings with members, committees, and/or staff of the General Assembly, State Budget and Control Board, Commission, etc., and due diligence meetings with current investment managers and to explore other investment opportunities.

Travel expenses incurred by the Commission for employees of other agencies, including the State Treasurer and staff of the Retirement System, for the Wampee Retreat were reimbursed by those agencies.

REVENUE, DEPT. OF

The Department of Revenue (DOR) incurred \$784,360 in travel expenditures during FY2006-2007. More than one-half of the agency travel expenditures were reimbursements for In-State Auto Mileage. Of the total travel expenditures, 72% were for In-State travel and 28% were for Out-of-State travel. The agency used both State and Other (Earmarked) funds to pay travel expense reimbursements.

Approximately 80% of total DOR travel expenditures during FY2006-2007 were incurred by tax audit and revenue collection personnel who audit taxpayers to ensure compliance for all taxes administered by the State or to enforce collection efforts, and by property analysts who appraise property. Domestic tax auditors and tax revenue officers incurred travel expenses, primarily reimbursements for in-state auto mileage, to examine the records of individuals and companies located within the state, and to meet with the taxpayer(s), CPA's and/or attorneys regarding their findings. SEA GRANT CONSORTIUM

The S.C. Sea Grant Consortium, created in 1978 by the S.C. General Assembly is charged with managing and administering the Sea Grant Program and related activities to support, improve and share research, education, training, and extension services in fields related to ocean and coastal resources. The Consortium's unique legislative mandate is to maximize the economic, social, and environmental potential of the coastal and marine resources of the state and region, and the agency does so by serving as a broker of information and funding.

The Consortium develops and supports a balanced and integrated research, education, and extension program for South Carolina which seeks to provide for future economic opportunities, improve the social well-being of its citizens, and ensure the wise use and development of its marine and coastal natural resources. It also administers an effective and efficient communications and extension network among academia, business, government, and the general public to ensure that Consortium activities are responsive to marine and coastal users and that information generated is delivered in a useful and timely fashion. Consortium institutions provide the expertise of their respective faculty and professional staffs, as well as a wide range of facilities and equipment, necessary to carry out the diversity of programs supported by the Consortium.

The Consortium organizes its research, education, extension and management activities into nine strategic program areas. All agency employees and their job functions are tied to these goal areas so that it is truly a team effort guided by one vision and mission for each individual's effort. The Agency Head is responsible for developing program initiatives and securing non-state funding to support them, and serves on a number of professional organizations and associations in pursuit of Consortium program growth. These tasks require travel both within the state, in Washington, DC and elsewhere in the country. Agency employees attend and, in many cases, organize national, regional, state and local conferences,

meetings and workshops to pursue their program responsibilities and acquire and disseminate the results of Consortium-sponsored research and education efforts. They also attend scientific, extension, communications and administrative meetings and workshops to pursue professional development opportunities in science research, outreach and administration.

THE CITADEL

Citadel employee travel occurs primarily for academic purposes. College professors make up 10 of the college's top 25 travelers. One of the faculty recruiting and retention keys at The Citadel is an annual grant that the college's fundraising entity, The Citadel Foundation, provides to promote academic enhancement at the college. The foundation specifically grants funds for presentations at academic meetings, travel for research that will result in publications or presentations at academic meetings, and travel for faculty development so that junior faculty can attend academic meetings and further enhance their base of knowledge so that they will be better prepared to conduct research and make presentations. The academic departments have very little appropriated funds for travel; almost all of the travel expenses for these 10 top travelers were paid with grant funds.
