**RE:** Travel Report – Fiscal Year 2015-2016

**DATE:** November 1, 2016

The enclosed Travel Report for Fiscal Year 2015-2016 is provided for your information. The Comptroller General's Office compiled the report as much as possible from data recorded in the state's central accounting system. Agencies and institutions that have the authority to issue their own checks and maintain their own accounting systems provided us their travel data to include in this report.

This report is prepared as a management tool to assist agency heads and state leaders in ensuring that the state's financial resources are being used efficiently. Please contact me if you have any questions about this report.

## **PREFACE**

The Comptroller General's Office compiled this report on travel expenditures for the fiscal year ended June 30, 2016, to the extent possible, from data recorded in the South Carolina Enterprise Information System (SCEIS). Agencies and institutions (both referred to hereafter as “agencies”) that receive state appropriations but have the authority to issue their own checks and maintain their own accounting systems, such as the state's technical colleges, state-supported universities, and certain autonomously-organized component units of the state that receive state appropriated funds, provided their travel data to us. That data also is included in this report.

Employee job titles were obtained from the Department of Administration’s Office of Human Resources (OHR), except for legislative and judicial agencies. Each legislative and judicial agency submitted the job titles for their employees listed in this report.

This report includes travel related expenditures paid from state, federal, and other sources by all agencies that received appropriations in the 2015-2016 Appropriations Act. Expenditures for travel costs incurred in the issuance of bonds, state-owned leased cars, and employee moving expenses are not included. Persons employed by one agency may incur travel expenditures that are appropriately charged to another agency. In these instances, the employee and the related travel is listed under the agency that ultimately paid for the travel.

### **This report is divided into four sections.**

**Section One** contains a summary of in-state, out-of-state, and non-state employee travel and registration expenditures by agency. Out-of-state travel includes domestic travel outside the state as well as travel outside the borders of the United States. Non-state employee travel represents expenditures made by agencies on behalf of non-state employees for transportation, mileage, lodging, meals, and other charges necessary in the performance of their services while under contract with the State. This section includes registration fees and travel paid to volunteer workers. Agencies are listed in descending order beginning with the agency that has the highest total of travel expenditures.

**Section Two** ranks each agency by the total amount spent on in-state and out-of-state travel. Expenditures for non-state employee travel **are not** included in this section. Accordingly, an agency’s rank in this section may differ from its rank in Section One.

**Section Three** ranks each agency by the combined total amount spent on in-state and out-of-state travel, but expenditures for non-state employee travel **are not** included in this section. Accordingly, an agency's rank in this section may differ from its rank in Section One. For each agency, the top twenty-five employee travelers are listed in descending order according to the amount expended. For agencies with more than twenty-five employee travelers, a line-item is included to show the total travel expenditures of all other employees not listed in the top twenty-five. In instances where more than one employee incurred an identical amount of travel expenditures as one of the top twenty-five, each employee is listed. Therefore, it is possible that some agencies will have more than twenty-five employees listed.

**Section Four** contains narratives provided by each agency summarizing the type of travel incurred. Agencies are arranged alphabetically.
